Your Challenge

Do you have experience, digital insight, and sharp analytical skills? Can you understand complex processes, with a focus on technical systems and Common Data Environment (CDE)? Join our team and support our Business Units in crucial ICT projects!

What You Will Do

As a Project Consultant, you guide our internal clients through their digital transformation. You provide expert advice and support on ICT projects, with a strong focus on understanding processes within projects and translating them into the right tools, such as CDE and document management systems.

You analyze existing processes, identify bottlenecks, and propose improvements. This contributes to the smooth integration of new technologies into existing workflows and helps internal clients achieve their business goals.

Additionally, you coach colleagues during implementation projects. You support them in embracing new systems and processes, guide change management, and ensure a smooth transition. With your mix of client-focused consulting, process optimization, and internal support, you make an impact on both our internal clients and our team.

Your profile

- You have at least a completed higher professional education (HBO) in Business Informatics or a similar field. A technical background in construction (Architecture, Mechanical Engineering, Civil Engineering) with experience in engineering, such as BIM, is also welcome;
- You have at least 3 years of experience in a similar role, such as Consultant, Technical Application Manager, or (junior) Business Analyst;
- You communicate effectively with users and can clearly identify their needs;
- You have experience with technical environments such as Autodesk (Construction Cloud), Dalux, and Microsoft technologies for electronic collaboration.

What you will receive

- An attractive salary 13 times a year, commensurate with your knowledge and experience;
- A good benefits package according to the Construction & Infrastructure collective labor agreement, 30 vacation days, an individual budget (6%) from which you can also purchase additional days off (13), and an excellent pension;
- A laptop, smartphone, and company car;
- A pleasant working environment where you can truly make a difference.

About us

Ballast Nedam is a Dutch construction and development company with international influences. We focus on people and results. With great dedication, we work together with our partners to build a sustainable living environment. Every day, we challenge ourselves to improve. This means we are committed to creating added value for our customers and enhancing the well-being of our environment.

We are open-minded, eager to learn, and focused on making real connections. We apply our unique way of working to realize beautiful projects, both in the Netherlands and abroad. Safety, sustainability, digitalization, and corporate social responsibility are our key priorities. We are proud to be part of Rönésans Holding, ranked 9th among Europe's largest international contractors. We are Ballast Nedam, we Challenge to Improve.
