**Title:**  
Junior Project Consultant

## Your challenge

Are you a recent graduate ready to start your career in ICT? Do you have an interest in information management, Common Data Environment (CDE), the construction sector, and can you analyze processes and contribute to digital transformation? Then start as a Junior Project Consultant!

**Field of Expertise:**  
ICT

**Location:**  
Nieuwegein

## What you will do

As a Junior Project Consultant, you support our internal clients in various ICT projects, with a specific focus on CDE and Document Management. You provide expert advice and help implement and maintain ICT solutions. By working closely with different departments, you ensure that digital work processes are optimally set up and utilized.

You analyze existing processes, identify improvement opportunities, and contribute to more efficient information flows. Additionally, you guide colleagues in implementing new systems and workflows. With your structured approach, you ensure that technological innovations seamlessly align with the client's needs.

Furthermore, you stay updated on the latest developments within ICT, focusing on CDE and construction/civil technologies. You collaborate with internal teams to achieve project goals and actively contribute to digital transformation. With your combination of technical knowledge, process optimization, and guidance, you make an impact on both clients and colleagues.

**Select type of vacancy:**  
Vast

**Department:**  
Ballast Nedam ICT

**Recruiter:**  
Nino Steenbergen

## Your profile

- You have at least a higher professional education (HBO) diploma in Business Administration, Architecture, Civil Engineering, or similar, and an affinity for ICT;
- You communicate proactively, clearly, and can effectively identify users' needs;
- You have an affinity for technology for electronic collaboration and enjoy working with tools from the Microsoft 365 family;
- You have an analytical and problem-solving mindset and can implement process improvements practically and effectively.

## What you will receive

- An attractive salary 13 times a year, commensurate with your knowledge and experience;
- A good benefits package according to the Construction & Infrastructure collective labor agreement, 30 vacation days, an individual budget (6%) from which you can also purchase additional days off (13), and an excellent pension;
- A laptop and smartphone;
- A pleasant working environment where you can develop professionally and personally and truly make a difference.

## About us

Ballast Nedam is a Dutch construction and development company with international influences. We focus on people and results. With great dedication, we work together with our partners to build a sustainable living environment. Every day, we challenge ourselves to improve. This means we are committed to creating added value for our customers and enhancing the well-being of our environment.

We are open-minded, eager to learn, and focused on making real connections. We apply our unique way of working to realize beautiful projects, both in the Netherlands and abroad. Safety, sustainability, digitalization, and corporate social responsibility are our key priorities. We are proud to be part of Rönas Holding, ranked 9th among Europe's largest international contractors. We are Ballast Nedam, we Challenge to Improve.
